

Surgical Survival Skills

Presented by:
Dr Mark Worthington

Are you looking at developing your skills in oral surgery techniques?

This interactive hands-on workshop will provide a practical update on basic oral surgery techniques. The morning session will discuss case assessment and surgical planning, followed by a **hands-on practical afternoon** involving raising flaps, socket preservation and suturing techniques.

Topics covered during the presentation will include:

- Patient assessment
- Principles of dento-alveolar surgery
- Equipment and materials
- Surgical planning and problem solving Flap design
- Ridge preservation
- Suturing techniques

Participants will require gloves 2x sets (non-sterile), periosteal elevator, scalpel holder, needle holder and scissors, mirror, probe and tweezers.

This course is well suited to dentists within their first five years of practice in NZ, or those wishing to refresh their skills in oral surgery.
